

CLAIM AMENDMENTS

Claims 1-15 (canceled)

Claim 16 (currently amended) A method for providing vehicle fluid to a vehicle comprising the steps of:

providing a flexible vehicle fluid container having brake fluid therein;

wherein said flexible vehicle fluid container is a bladder having sides and having, in a filled condition, a first exterior size;

wherein said bladder has an integral first nozzle permitting said vehicle fluid to exit said bladder;

wherein said bladder is sufficiently flexible to that said sides will contract against each other as said brake ~~vehicle~~ fluid exits therefrom via said integral first nozzle, so that said bladder will have a second exterior size which is smaller than said first exterior size;

providing a hose having a first end and a second end and coupled at a first end thereof to said first nozzle;

providing a valve to regulate flow of said brake ~~vehicle~~ fluid out of said bladder;

positioning said second end of said hose ~~first nozzle~~ proximate a fill opening for said brake ~~vehicle~~ fluid;

opening said valve; and

permitting said brake ~~vehicle~~ fluid to exit said bladder and enter said fill opening, causing said bladder to have said second exterior size.
